

# Proceedings of the UK Controlled Environment Users' Group

## 1992 SCIENTIFIC MEETING

### “CO<sub>2</sub> ENRICHMENT FOR CLIMATE CHANGE RESEARCH”

#### Volume 3

#### Contents

- 
1. Measurement and control of CO<sub>2</sub> in greenhouses and daylit cabinets. **D.W. Hand** 2 – 4

---

  2. Exposure facilities for climate change research - CO<sub>2</sub> and temperature control. **R. Baxter & C.R. Rafarel** 4 - 6

---

  3. Problems of controlling gases in the open air. **A.R. McLeod** 6 - 7

---

  4. Attempting to simulate natural rooting environments in controlled atmosphere chambers. **J. Townend** 7 - 8

---

  5. Comparative studies on elevated CO<sub>2</sub> using open top chambers, tree chambers and branch bags. **C. Barton & H. Lee** 8 - 9
